

Thermal Grease Alseye T9

Overview:

High Thermal Conduction

Born for the LAN partyers who pursuit for acme.

High Performance, Wide range of application

Compatible with CPU, GPU and other chipset.

Easy to overclocking.

Combinate with technology of intelligent factor

Normal working at the harsh environment with the intelligent factor.

5.W/mk=13W

Thermal Conductivity up to 13W, the strong performer of thermal grease.

Key features:

Package : 2g syringe

Thermal conductivity: 13W/m.k

Grease color: Gray

Electrical conductivity: No

Specific gravity: 2.6g/cm³ @25°C

Volume: 5ml Fan oil

Cone penetrations: 310-340mm

Viscosity: 260cst Drop point: 175°C

Ice point: 40°C

Water resistance (38°C, 1h): 8.0%
