

Pci Wireless Adaptor N 150Mbps Tenda W311P+

Overview :

W311P+ is a 802.11n compliant wireless PCI Adapter that provides up to 4x faster wireless speeds and 3x better wireless reception over 802.11g products while staying backward compatible with 802.11g/b devices. The wireless adapter is the best choice for easily adding or upgrading wireless connectivity to your desktop computer. Connect your desktop computer to a wireless network and access a high-speed Internet connection, transfer files and stream media from greater distances across your home than previous-generation Wireless G technology. The W311P+ makes it easy to set up and connect to your home or office wireless network without professional installation. It includes a Setup Installation Wizard CD-ROM, which walks you through the easy step-by-step installation process to configure the PCI Adapter in minutes. Also included is a wireless connection manager that simply adds and saves the settings for the networks you frequent most.

Features:

- **N Speed**
- Delivers up to 150Mbps wireless speed, 4X faster than ordinary wireless G devices
- **Enhanced Wireless Reception**
- Deliver better wireless performance and faster file transfers based on 802.11n technology over 802.11g adapters
