

Memory Card Micro SDHC 4/8/16GB Apacer Class 4

Overview:

Apacer microSDHC™ Class 4 memory card with its high capacity from 4GB to 32GB. Besides huge capacity, the memory card will also provide consumers with high performance and faster data transmission speeds. The Apacer microSDHC™ memory card– the world's smallest removable storage – features a thumbnail-sized footprint and sufficient storage for all 3G phones' digital content including high-resolution photos, large audio and video files, MMS, e-mail messages, and Java-based games. Maximize your 3G audio and video entertainment fun with Apacer's Mobile Series memory cards. While the same size with the original microSD card, microSDHC is only compatible with microSDHC host devices and not backward compatible with standard microSD-enabled devices and readers.

Features:

- Compliant with SD Spec Ver 2.0
- Large capacity up to 32GB
- Supports ECC function to detect and correct errors
- Supports Wear Leveling function to extend product life cycles
- Complies with highest security of SDMI standard
- Speed Class: Class 4 (minimum write speed of 4MB/sec)
- Available with Norton Internet Security
